HOSUING & FURNITURE MANAGEMENT OFFICES CLOSURE

Due to a Portuguese holiday, the Housing and Furniture Management offices will be closed on October 5. For emergencies please, call 96 793 23 76.

AFN IMPLEMETATION OF HD TV TO OVERSEAS VIEWERS

AFN has implemented the initial phase of a plan to provide High Definition (HD) AFN TV to DoD viewers overseas. The initial fielding is very complicated and will take a while to implement Europe-wide. For now, during the first phase, viewers with a CISCO 9865 decoder will be able to view one channel of HD TV, AFN|sports, on channel 801 starting September

25th (test is already running on channel 801 so HD sports can be viewed now). If you get AFN TV in your home from via an older model AFN decoder, on a military installation, or via a host-nation cable provider, you will not be able to view the HD Sports Channel, but you will continue to get the same AFN radio and TV services, to include the same non-HD AFN|sports channel you have been viewing. Sports is the most widely viewed programming on AFN, and AFN|sports is the most watched channel in group viewing areas on big screen TVs. In the coming months, our technicians will continue to upgrade our technical infrastructure to bring HD to the entire US military community in Europe. We regret that we can't do an HD upgrade for our entire audience at one time, but we decided to implement a phased approach to give at least some of our audience HD as soon as possible.

Just like in the United States, converting to HD will require a lot of new equipment and the work of many people, but it is our goal to complete the total transition as soon as we possibly can.
