CONTINUOUS SCHOOL IMPROVEMENT TIP OF THE WEEK

To assist you in helping your child with the Lajes E/HS goals, we will be sending out a weekly CSI (Continuous

School Improvement). Please see below authentic strategies that you can work on with your child.

Goal 1: All students, by 2014, will increase their proficiency in critical reading through improvement in analyzing text in all content areas as measured by system-wide and school based assessments.

- Here is a fun way to search for words! Have your children use a magnifying glass to find hidden words and record them on a sheet. Then have you children read the words to you. You can use the small print from newspapers and magazines.

Goal 2: All students, by 2014, will increase their proficiency in math through improvement in number relationships and application across the curriculum as measured by system-wide and school based assessments.

- Count the wheels of cars in a parking lot using multiplication or addition. Example: 5 cars in a parking lot multiplied by 4 wheels on each car could be calculated using $(5 \times 4 = 20)$ or $(4 + 4 + 4 + 4 + 4 = 20)$. If there are many cars in the parking lot, allow them to use a calculator to multiply.

In addition, you can help the school by sending a response email, telling us how you are working on the above strategies at home or photos to help us document evidence of your child working on the goals at home!
