Continuous School Improvement (CSI) Tidbits!

Goal 1: All students, by 2014, will increase their proficiency in critical reading through improvement in analyzing text in all content areas as measured by system-wide and school based assessments.

- Help your child build their reading skills by having your child listen to downloadable stories. Most importantly make sure he/she is following along word by word on the page.

Goal 2: All students, by 2014, will increase their proficiency in math through improvement in number relationships and application across the curriculum as measured by system-wide and school based assessments.

- Have your child use a protractor to draw a design using only acute angles. Then try using only obtuse angles or only right angles.

In addition, you can help the school by sending a response email, telling us how you are working on the above strategies at home or photos to help us document evidence of your child working on the goals at home!
