Continuous School Improvement Tip of the Week

To assist you in helping your child with the Lajes E/HS goals, we will be sending out a weekly CSI (Continuous School Improvement) Tidbit. Please see below authentic strategies that you can work on with your child.

Goal 1: All students, by 2014, will increase their proficiency in critical reading through improvement in analyzing text in all content areas as measured by system-wide and school based assessments.

Pretend two book characters meet. Pick a favorite character from each of two books and write a new story or play in which they meet.

Goal 2: All students, by 2014, will increase their proficiency in math through improvement in number relationships and application across the curriculum as measured by system-wide and school based assessments.

Figure the probability of, or guess, how many times the six numbers on a die will get rolled in ten rolls. Make a chart with the numbers 1, 2, 3, 4, 5, and 6 written across the top. Beneath the numbers, players write their prediction of how many times each number will be rolled. Next, roll the die ten times checking off each time a number gets rolled. At the end of ten rolls, see how accurate the guesses were.

In addition, you can help the school by sending a response email, telling us how you are working on the above strategies at home or photos to help us document evidence of your child working on the goals at home!

Laurie Salafia, SLO, 535-5711.
